- * Wall panels need to be purchased and installed
- * Tom Maertens will negotiate with Senior Center when he returns to Michigan regarding their portion of baffle cost
- *The panels are intended to reduce reverberation sound; its very subtle
- * Mike S. Is currently researching the option of either purchasing or installing sound panels at the top and bottom of court dividing nets; potential cost is approximately \$2,200; less if we are able to fabricate with existing nets

B. Riverwoods:

- * Mark Coons reported we are in holding pattern; waiting for engineering firm to stake and survey the area proposed for courts
- * Site study needs to be done
- * Parking lot still a problem
- * Decision made to revisit Lake Michigan College and their efforts to construction courts now that their millage has been renewed
